

Fast, Secure, Compliant

Audaconnect is an encrypted API-based platform which enables fast, secure integration.

The flexibility of the service allows only the relevant data to be passed from Audatex to our customers third party service providers, such as bodyshop management systems or parts suppliers.

Service providers currently integrated with Audaconnect include:

- Advance
- AutoFlow Ltd
- Autosoft
- BlueGrass
- Bodynet
- Eclipse
- EMACS
- Impetus Automotive

Service providers currently in progress with Audaconnect Integration include:

- EasiEst

For more information about **Audaconnect**, or if you have any questions regarding the up-coming changes, please contact servicedesk@audatex.co.uk.
